

MARYLAND CLEAN CAR CLINIC

COUPON FOR A FREE CAR INSPECTION

Friday, April 26, 2013 • 9 am - 12 noon

Thomas Farm Community Center • 700 Fallsgrove Drive, Rockville, MD 20850

ASE-certified technicians from the University of Maryland will provide a FREE 15 minute, 26-point non-invasive inspection; which will include checking the tire pressure, belts and hoses, fluid levels, gas cap and other parts of the vehicle that affect how efficiently it runs.

How to Participate: 22 reservations will be accepted on a first-come-first-serve basis. Participants must pre-register on the City's website through Rock Enroll (course number 42763) or in person at any Recreation facility. Please call 240-314-8840 for more information. After registering, you will be contacted to finalize an inspection time to bring your car to the Center parking lot.

Marylanders drive 151 million miles a day and account for 30 percent of the emissions that contribute to the poor air quality in this region. Keeping cars well maintained not only promotes safety, but also better gas mileage and emission reductions.

Fine print: The technician will NOT make any repairs, but the vehicle owner will be provided with a copy of the completed inspection form as well as a tire pressure gauge, lighted key chain and literature detailing vehicle maintenance.
